EDUCATION

Galgotias University

Bachelor of Technology in Computer Science

Greater Noida, UP

Sept. 2016 – May 2020

Diwakar Model School

High School

Ghaziabad, UP

March 2016

EXPERIENCE

Senior Associate Developer (Full-stack)

Nexbase Marketing Pvt. Ltd.

Dec. 2022 – Present

Gurugram, Haryana

- Build REST APIs using Nodejs and express.
- Acquired proficiency in Redis, SQL, and AWS, instrumental in optimizing large user-based system.
- Navigating large user bases, refining my skills in crafting efficient database structures and implementing scalable solutions,
- Managing and guiding freshers with optimal and dynamic solutions.

Associate- Full-stack Developer

Successive technology

Oct 2020 – Nov-2022

Noida, UP

- Build REST APIs using Nodejs, express, and worked on NoSQL database and cache system like MongoDB and Redis.
- Developed frontend applications using React with global state management like Redux and Zustand. Worked with styled components using third-party libraries like Bootstrap and material UI.
- Explored versioning tools like GitHub, BitBucket, and GitLabs

PROJECTS

NoiseFit Application | Nodejs, Express, Redis, Typescript, MySQL,

Dec 2022 2018 – PRESENT

- Developed a comprehensive Friends module, enabling users to send, receive, and accept friend requests, fostering social interaction. Implemented REST APIs using Node.js, Express, MySQL database, and Redis cache to optimize performance.
- Spearheaded the creation of a dynamic Reward system, recognizing and rewarding user loyalty based on day-to-day progress. Introduced the flexibility for users to redeem rewards, including coins and brand coupons, contributing to effective promotional campaigns.
- Engineered an innovative Nudge system utilizing the JSON-rule engine, delivering personalized nudges by evaluating user steps, readiness, and sleep data. Enhanced user engagement by providing tailored recommendations.
- Designed and implemented features such as Near Me and Common Interest sections, showcasing up to 100 users evenly distributed based on location and shared interests, fostering connections within the community.
- Pioneered the development of a Prediction module, engaging users in predicting live match outcomes, enhancing user participation and excitement within the platform.

GoVA Loans | Node, JS ,React, Zustand, Material-UI

Feb 2022 – Nov 2022

- Developed a single-page application in the banking domain using React, implementing global state management with Zustand to ensure seamless user experiences.
- Applied Material UI components alongside with SCSS for styling.

Filament-EBM | React, Redux, Bootstrap

Oct 2020 – Sept 2021

- Utilized React, React-Bootstrap, and Redux to create a user-friendly tool for designing, operating, and monitoring chatbot programs.
- Implemented a Test-Driven Development (TDD) approach to ensure robust functionality and maintainability throughout the development lifecycle.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML/CSS, GraphQL

Frameworks: React, Node.js, Express, Material-UI

Developer Tools: Git, Docker, VS Code, Visual Studio, RedisInsight, Workbench, Compass, postman

AWS: SQS, LAMDA, S3, EC2-monitoring

Database: MongoDB, Redis, MySql
